

# PROBES

**ReAct /OneHealth**

---

These are cards help participants identify the domain and bring out issues from that perspective. Participants are encouraged to bring out issues that they face or they can map. Behind each of the cards, there are points to help them discuss. The facilitators should encourage them to talk about real life examples, scenarios and possibilities that are happening around us. They should be able to identify and connect different issues.

---

# ENVIRONMENT

---

## INFRASTRUCTURE

**ReAct /OneHealth**

**Equipments  
required**

---

**Requisites of  
the location**

---

**Weather or  
climate constraints**

ENVIRONMENT

---

## WATER HYGIENE

**ReAct /OneHealth**

**The source  
of the water**

---

**Access to  
potable water**

---

**Processes for safe  
water consumption**

---

**Disposal of water  
into water bodies**

ENVIRONMENT

---

## OTHER SPECIES

**ReAct /OneHealth**

**Rodents & pests**

---

**Transmission of  
pathogens  
through other  
modes**

# ENVIRONMENT

---

## LAND

**ReAct /OneHealth**

**Space constraints**

---

**Use of land**

---

**Compositing  
for manure**

---

**Dealing with  
foliage**

# ANIMAL ANTIBIOTICS

**ReAct /OneHealth**

**Growth promoters**

---

**Antibiotic  
resistance**

---

**Vaccinations**

---

**Zoonotic  
diseases**

# ANIMAL HANDLING

**ReAct /OneHealth**

**Production practices  
involving animals**

---

**Ownership of  
animals**

---

**Maintenance**

ANIMAL

DOMESTIC

**ReAct /OneHealth**

**Human contact**

---

**Animal welfare**

---

**Mental  
wellbeing**

---

**Stray  
animals**

ANIMAL

WILDLIFE

**ReAct /OneHealth**

**Human-wildlife  
conflict**

---

**Endangered  
species**

---

**Natural  
habitat**

HUMAN

# FOOD SYSTEMS

**ReAct /OneHealth**

**Food sources**

---

**Consumption  
patterns**

---

**Food chains**

---

**Excess food  
and disposal**

HUMAN

# SANITATION

**ReAct /OneHealth**

**Hygienic practices**

---

**Access to proper  
infrastructure**

---

**Financial  
Constraints**

HUMAN

# INTER- DEPENDANCE

**ReAct /OneHealth**

**Animals for  
food, materials,  
& testing**

---

**Natural resources  
for fuel & energy**

---

**Practices &  
management**

HUMAN

# HUMAN HEALTH

**ReAct /OneHealth**

**Medical practices  
& research**

---

**Vulnerable  
communities  
[women & children]**

---

**Awareness &  
health literacy**

# STAKEHOLDERS

**ReAct /OneHealth**

---

These cards help the participants identify the people who play a part in any of the issues discussed. The stakeholders are divided into **consumers** (public), **facilitators** (teachers, doctors, servicemen), **regulators** (government, organisations) and **producers** (corporations, farmers, makers, creators). This assists in identifying roles, responsibilities and power.

---

# STAKEHOLDERS

# CONSUMERS

**ReAct /OneHealth**

**Who is on the  
receiving end?**

---

**Who are the actors  
in the system?**

---

**Whose behaviour  
primarily influences  
the system?**

# STAKEHOLDERS

---

# FACILITATORS

**ReAct /OneHealth**

**Who have  
the ability to  
communicate  
knowledge?**

---

**Who are mediators,  
who connect the  
producers to  
the consumers?**

---

**Who are the  
service providers?**

# STAKEHOLDERS

---

## REGULATORS

**ReAct /OneHealth**

**Who has the  
power to regulate  
the system?**

---

**Policy making &  
implementation**

---

**Provision of  
incentives  
& benefits**

# STAKEHOLDERS

---

## PRODUCERS

**ReAct /OneHealth**

**Who is responsible  
for the production  
and manufacturing  
processes?**

---

**Who makes decisions  
regarding the  
use of resources?**

---

**What is the scale  
of such industries?**

# INTERVENTION

**ReAct /OneHealth**

---

These set of probes assist the participants in concluding to a solution. Probes like strategy, policy, resources and engagement help them build a concrete intervention, with the kind of resources needed for infrastructure or production, groups of people for community engagement or awareness of the practices and services that need to be developed.

---

SOLUTIONS

---

# STRATEGY

**ReAct /OneHealth**

**Organisational  
change**

---

**Rethinking services  
& product systems**

---

**Innovative  
interventions**

SOLUTIONS

---

# POLICY

**ReAct /OneHealth**

**Change in policies  
and their  
implementation**

---

**Incentives for  
betterment**

---

**Funding  
programs**

SOLUTIONS

---

# RESOURCES

**ReAct /OneHealth**

**Redirection of  
the capital**

---

**Provision of  
infrastructure &  
basic amenities**

---

**Educational  
material**

SOLUTIONS

---

# ENGAGEMENT

**ReAct /OneHealth**

**Awareness  
campaigns &  
discussions**

---

**Community  
engagement**

---

**Call for change**
