

# MAP YOUR FARM

- Are the egg store room, office room and the feed/store room located near the entrance?

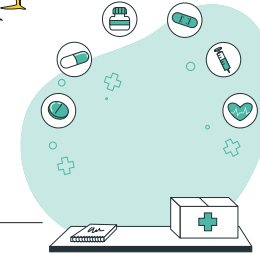

- Is the orientation of the poultry sheds from East-West direction?

- Is there proper distance between two poultry houses?

- Are birds of different age groups kept separately?

- Do you have access to proper feed supply, vaccine and medicine within reach?

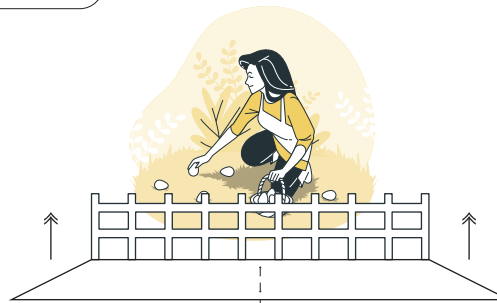

- Is there a diagnostic facility near your farm?

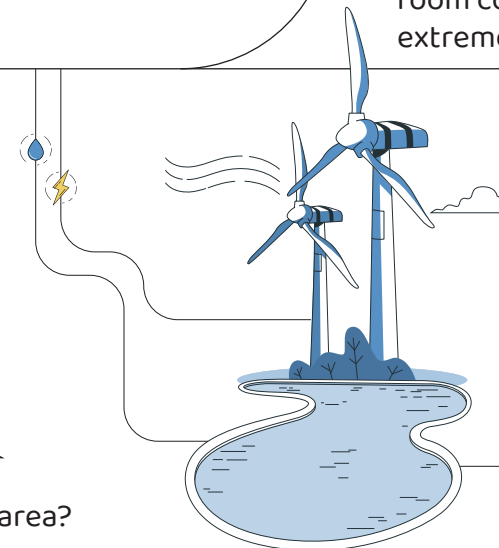

- Are there any other poultry farms nearby?

- Are the disposal pit and sick room constructed on the extreme end of the site?

- Is your farm constructed on an elevated area?

- Does the farm have proper water and electricity supply?
